

AI Productivity for Managers

Smart tools. Better decisions.
More impact every day.

SAVE TIME

Automate repetitive tasks and focus on what matters

MAKE BETTER DECISIONS

Get AI-powered insights for confident decisions

STAY ORGANIZED

Summarize, prioritize and manage work effortlessly

LEAD EFFECTIVELY

Communicate clearly and collaborate smarter

DRIVE RESULTS

Turn plans into action and achieve more with AI

IDEA GENERATION

Brainstorm ideas and solve problems creatively

SMART EMAIL

Draft, reply and summarize emails in seconds

SET PRIORITIES

Focus on high-impact activities

MEETING ASSISTANT

Summarize discussions, extract action items and follow-ups

DATA INSIGHTS

Analyze data and visualize insights instantly

TASK AUTOMATION

Automate workflows and reduce manual work

AI Assistant

Good morning, Manager!
Here's your productivity overview.

Today's Plan

- ✓ Team Meeting
- ✓ Project Review
- ✓ Client Call
- ✓ Report Submission

Work Summary

Key Insights

- ✓ Sales increased by 18% this week
- 3 tasks are pending your review

To-Do List

- | Task | Due |
|-------------------|----------|
| ✓ Market Analysis | Today |
| ✓ Budget Planning | Today |
| □ Team Update | Tomorrow |
| □ Strategy Review | Friday |

Learning Objectives

By the end of this session, participants will be able to:

- ✓ Understand how AI improves workplace productivity.

- ✓ Identify repetitive tasks that AI can automate.

- ✓ Design a personal AI-assisted daily workflow.

- ✓ Use AI to support meetings, emails, planning, and decision-making.

- ✓ Recognize where human judgment remains essential.

What is AI Productivity?

AI Productivity means using AI tools to complete work **faster, more accurately, and with less manual effort.**

It allows professionals to spend less time on routine tasks and more time on **strategic thinking and decision-making.**

Traditional Workflow vs AI-Assisted Workflow

Traditional Workflow

Time Required:

Approximately 6–8 hours.

AI-Assisted Workflow

Time Required:

Approximately 3–4 hours, with human review.

Where Managers Spend Time

A typical manager spends time on:

Reading emails

Attending meetings

Writing reports

Planning projects

Creating presentations

Reviewing documents

Scheduling tasks

Communicating with teams

Many of these tasks can be **accelerated with AI.**

AI in a Manager's Daily Routine

Morning (9:00 AM)

✗ Without AI

Open inbox

Read 50 emails

Prioritize manually

Time: **60 minutes**

✓ With AI

Prompt:

“ Summarize today's emails into:

- Urgent
- Important
- Informational

Highlight emails requiring my response. ”

Time: **10–15 minutes**

AI helps managers save **45–50 minutes** every morning.

Meeting Preparation

✗ Traditional

Read previous meeting notes

Collect reports

Create agenda

Time Required: ~45–60 minutes

✓ AI-Assisted

Prompt:

“ Create a meeting agenda using last week’s meeting notes.
Highlight unresolved issues and suggest discussion points. ”

AI Delivers:

- ✓ Structured agenda
- ✓ Unresolved issues
- ✓ Suggested discussion points
- ✓ Key decisions to follow up

Time Required: ~10–15 minutes

AI saves **30–45 minutes** in meeting preparation and helps you lead more focused discussions.

During Meetings

Instead of manually writing notes, AI can help **organize information** after the meeting.

AI turns raw notes into **clear, actionable outcomes.**

AI helps you **focus on the conversation** during the meeting, not on taking notes.

Example Prompt

- “ Convert these meeting notes into:
- Summary
 - Decisions
 - Action Items
 - Owners
 - Deadlines

AI-Generated Output (Organized)

Category	Details	Owner	Deadline
 Summary	Discussed Q4 marketing plan, budget allocation, and product launch timeline.	 –	–
 Decisions	Approved budget of \$150K for campaigns. Launch date set for 15 Dec 2025.	 –	–
 Action Items	• Finalize campaign creatives • Update landing page • Prepare launch announcement	 Rohit  Ananya  Neha	 05 Nov 2025  07 Nov 2025  10 Nov 2025
 Owners	See action items for assigned owners.	–	–
 Deadlines	All deadlines are listed against action items.	–	–

After Meetings

AI can help you turn meeting conversations into **clear actions, updates, and communication** in minutes.

AI CAN GENERATE

Minutes of Meeting (MoM)

Structured summary of discussions, decisions, and action items.

Follow-up Emails

Professional emails with summary and action items.

Task Lists

Organized tasks with owners and deadlines.

Project Updates

Status updates for stakeholders and management.

EXAMPLE AI-GENERATED FOLLOW-UP EMAIL

To: Team

Subject: Follow-up – Meeting Summary & Action Items

Hi Team,

Thank you for the productive discussion today. Please find below a summary of the key points and action items from our meeting.

MEETING SUMMARY

We discussed the Q4 marketing plan, budget allocation, product launch timeline, and resource requirements. Key decisions were made on campaign budget and launch date.

ACTION ITEMS

#	Action Item	Owner	Deadline
1	Finalize campaign creatives	Rohit	05 Nov 2025
2	Update landing page	Ananya	07 Nov 2025
3	Prepare launch announcement	Neha	10 Nov 2025

NEXT STEPS

Please review your action items and let me know if you need any support. We will sync again next week to track progress.

Best regards,
Your Manager

PROMPT

Write a follow-up email summarizing today's meeting and include all action items with deadlines.

AI **saves time**, ensures nothing is missed, and **keeps everyone aligned** on what's next.

Report Writing with AI

AI helps managers create clear, structured, and professional reports in minutes.

PROMPT

“ Create a weekly project status report using these bullet points.

Include:

- Progress
- Risks
- Recommendations
- Next Steps

”

WHAT AI DELIVERS

Well-structured report

Saves time and effort

Highlights key insights

Helps in better decision-making

Time Saved:
60–90 minutes

WEEKLY PROJECT STATUS REPORT

Project Name: Website Redesign

Reporting Week: 20 May – 26 May 2025

Project Manager: Aman Raj

Date: 26 May 2025

1. PROGRESS

- Completed the new homepage design and received stakeholder approval.
- Implemented user authentication module.
- API integration for user profile completed.
- 70% of the dashboard UI development is complete.

2. RISKS

- Delay in receiving content from the marketing team.
- Third-party API rate limits causing intermittent failures.
- Potential delay in final testing due to resource constraints.

3. RECOMMENDATIONS

- Prioritize content delivery to avoid downstream delays.
- Upgrade API plan to avoid rate limit issues.
- Allocate additional QA resources for final testing phase.

4. NEXT STEPS

Task	Owner	Due Date	Status
Complete dashboard UI	Neha	30 May 2025	In Progress
Integrate payment gateway	Rohit	02 Jun 2025	In Progress
Content upload and review	Marketing Team	28 May 2025	Not Started
Final testing	QA Team	05 Jun 2025	Pending

Overall Summary: The project is on track with most deliverables progressing as planned. Timely content and resource availability are critical for on-time delivery.

AI turns your bullet points into **clear insights** and **actionable reports**.

AI-Powered Presentation Creation

Prompt: Create a 10-slide presentation for senior management summarizing this quarter's sales performance. Include speaker notes.

1

Q2 2024 Sales Performance Overview

Strong Growth. Strategic Wins. Sustainable Momentum.

Speaker Notes:
Introduce the purpose of the presentation and provide a high-level view of Q2 performance.

2

Executive Summary

 Total Sales \$24.8M ▲ 18% vs Q1 2024	 Net Revenue \$21.3M ▲ 16% vs Q1 2024	 Units Sold 125K ▲ 14% vs Q1 2024	 Gross Margin 32.6% ▲ 2.3 pp vs Q1 2024
---	--	--	--

Speaker Notes:
Highlight the key takeaways and top-line metrics for the quarter.

3

Sales Performance vs Targets

\$ Millions

Metric	Target	Actual	Variance
Total Sales	20	22.4	+12%
Net Revenue	20	21.8	+9%
Gross Profit	10	11.5	+15%

Speaker Notes:
We exceeded our targets across all major financial metrics.

4

Sales Trend – Last 4 Quarters

\$ Millions

Quarter	Sales (\$ Millions)
Q3 2023	16.1M
Q4 2023	18.4M
Q1 2024	21.0M
Q2 2024	24.8M

Speaker Notes:
Sales have shown consistent growth over the past four quarters.

5

Sales by Region

Region	Sales (\$ Millions)	Percentage
North America	\$9.9M	40%
Europe	\$7.4M	30%
Asia Pacific	\$5.0M	20%
Rest of World	\$2.5M	10%

Speaker Notes:
North America remains our largest region, followed by Europe and Asia Pacific.

6

Sales by Product Category

Product	Sales (\$ Millions)	Percentage
Product A	\$11.2M	45%
Product B	\$6.2M	25%
Product C	\$5.0M	20%
Product D	\$2.4M	10%

Speaker Notes:
Product A continues to drive the highest revenue, contributing 45% of total sales.

7

Key Wins This Quarter

- ✓ Launched 3 new products with strong market response
- ✓ Expanded into 2 new geographies
- ✓ Strengthened partnerships with 5 key customers
- ✓ Achieved record customer satisfaction (92%)

Speaker Notes:
These strategic wins have contributed to our strong performance this quarter.

8

Challenges & Mitigations

Challenges	Mitigation Actions
Supply chain delays	Diversified suppliers and improved inventory planning
Inflation impacting product costs	Implemented cost optimization initiatives
Increased competition	Invested in marketing and customer engagement

Speaker Notes:
We faced challenges but took proactive steps to mitigate their impact.

9

Outlook – Q3 2024

- Focus on new product adoption
- Expand in high-growth markets
- Enhance operational efficiency
- Target sales growth of 15%+

Speaker Notes:
We remain optimistic and focused on driving sustainable growth in Q3.

10

Thank You

Questions & Discussion

Speaker Notes:
Open the floor for questions and discussions.

How AI Helped

 Saves Time AI quickly organizes data and creates a structured presentation.	 Data-Driven Insights Highlights key trends and performance metrics.
 Clear & Professional Well-designed slides with concise content and visuals.	 Speaker Notes Included AI generates relevant speaker notes for every slide.

PROJECT PLANNING

Prompt

Create a project plan for launching a new product.

Include:

- Timeline
- Milestones
- Risks
- Responsibilities

PROJECT PLAN

Launch of New Product

This plan outlines the key activities, timeline, milestones, risks, and responsibilities for a successful product launch.

PROJECT OBJECTIVE:

Successfully launch our new product in the market, achieve strong initial adoption, and meet Q3 revenue targets.

- Project Sponsor** : CEO
- Project Manager** : Product Manager
- Start Date** : 12 May 2025
- Target Launch Date** : 15 August 2025
- Budget** : \$250,000

1. TIMELINE

Phase / Activity	Start Date	End Date	May 2025	Jun 2025	Jul 2025	Aug 2025
1. Market Research	12 May 2025	23 May 2025				
2. Product Development	26 May 2025	27 Jun 2025				
3. Testing & Quality Assurance	30 Jun 2025	18 Jul 2025				
4. Marketing Preparation	16 Jun 2025	8 Aug 2025				
5. Pre-Launch Activities	28 Jul 2025	12 Aug 2025				
6. Product Launch	15 Aug 2025	15 Aug 2025				
7. Post-Launch Support	18 Aug 2025	30 Sep 2025				

2. KEY MILESTONES

Milestone	Target Date	Description
1 Market Research Complete	23 May 2025	Complete market analysis and customer insights.
2 MVP Development Complete	27 Jun 2025	Core product features developed and ready for testing.
3 Testing Complete	18 Jul 2025	All testing (functional, performance, security) completed.
4 Marketing Campaign Ready	8 Aug 2025	Marketing materials, website, and campaigns ready to go.
5 Product Launch	15 Aug 2025	Official go-live and product available to customers.
6 Post-Launch Review	5 Sep 2025	Evaluate performance and collect customer feedback.

3. RISKS & MITIGATION

Risk	Impact	Probability	Mitigation Plan
Development delays	High	Medium	Agile development, weekly tracking, resource buffer.
Quality issues in testing	High	Low	Early testing, automation tests, QA checkpoints.
Market acceptance lower than expected	Medium	Medium	Pre-launch surveys, beta testing, targeted marketing.
Marketing campaign ineffectiveness	Medium	Low	A/B testing, multi-channel strategy, performance monitoring.
Budget overrun	High	Low	Regular budget reviews, cost tracking, approval controls.

4. ROLES & RESPONSIBILITIES

Role	Name / Team	Key Responsibilities
Project Sponsor	CEO	Provide vision, approve budget, remove roadblocks.
Project Manager	Product Manager	Overall planning, coordination, timeline tracking, reporting.
Development Lead	Engineering Team	Product development, technical decisions, delivery.
QA Lead	QA Team	Test planning, execution, quality assurance.
Marketing Lead	Marketing Team	Go-to-market strategy, campaigns, content creation.
Sales Lead	Sales Team	Customer readiness, sales training, pipeline preparation.
Customer Support Lead	Support Team	Support planning, knowledge base, post-launch support.

DECISION SUPPORT

AI should assist decisions—not make them.

Prompt:

Compare these two vendors based on:
Cost, Delivery Time, Quality, Customer Reviews.
Provide a recommendation with advantages and risks.

Manager Note:
AI provides analysis and recommendations.
The manager still makes the final decision.

Criteria	Vendor A	Vendor B	Comparison
 Cost	\$48,000 Lower	\$58,000 Higher	 Vendor A is 17% lower in cost
 Delivery Time	4 – 5 weeks Faster	7 – 8 weeks Slower	 Vendor A delivers 2–3 weeks faster
 Quality	★★★★★ Good	★★★★★ Excellent	 Vendor B has slightly better quality
 Customer Reviews	4.2 / 5 (120 reviews)	4.6 / 5 (210 reviews)	 Vendor B has higher customer satisfaction

RECOMMENDATION

Vendor A is recommended for cost savings and faster delivery. However, if quality is the top priority, Vendor B is a stronger option.

ADVANTAGES

- Vendor A: Lower cost, faster delivery
- Vendor B: Higher quality, better reviews
- Both vendors have proven market experience

RISKS

- Vendor A: Quality may not be as high
- Vendor B: Higher cost, longer delivery time
- Market or supply chain changes may impact delivery

Final Decision: The manager should review this analysis along with other business factors and make the final decision.

CASE STUDY

SCENARIO

COMPANY

ABC Electronics

PROBLEM

The Sales Manager spends:

- 2 hours reading emails
- 1 hour creating reports
- 1 hour preparing presentations
- 1 hour writing meeting notes

TOTAL:

5 HOURS

**DAILY ON
ADMINISTRATIVE WORK.**

AI SOLUTION

STEP 1

AI summarizes emails.

TIME SAVED:

90 minutes

STEP 2

AI drafts reports.

TIME SAVED:

45 minutes

STEP 3

AI prepares presentation outlines.

TIME SAVED:

30 minutes

STEP 4

AI creates meeting minutes.

TIME SAVED:

45 minutes

RESULT

Administrative work reduced from:

5 hours

approximately
2 hours

The manager gains more time for:

Strategy

Coaching employees

Customer engagement

Business growth

AI Productivity Across Departments

AI Productivity Across Departments

Department	AI Productivity Tasks
 HR	Job descriptions, interview scheduling, onboarding documents
 Marketing	Campaign planning, content writing, social media calendars
 Finance	Budget summaries, forecasting support, report drafting
 Sales	Proposal creation, CRM updates, follow-up emails
 Customer Support	Email replies, FAQ generation, chatbot assistance
 Operations	SOP creation, workflow documentation, inventory summaries
 IT	Code generation, documentation, debugging assistance

Tools for Daily Productivity

Task	AI Tool
 Email Writing	ChatGPT, Microsoft Copilot
 Meeting Notes	Microsoft Teams Copilot, ChatGPT
 Reports	ChatGPT, Claude
 Research	Gemini, NotebookLM
 Presentations	Microsoft Copilot, Gamma
 Data Analysis	Excel Copilot, ChatGPT
 Brainstorming	ChatGPT, Gemini

When NOT to Use AI

Avoid relying solely on AI for:

 Employee performance ratings

 Final hiring decisions

 Legal approvals

 Financial sign-off

 Medical advice

 Confidential strategic decisions

 These require human expertise and accountability.

ACTIVITY

Build Your Personal AI Workflow

STEP 1 List five tasks you perform regularly.

Example:

- Read emails
- Create reports
- Schedule meetings
- Prepare presentations
- Write meeting minutes

1	
2	
3	
4	
5	

STEP 2 Identify which tasks AI could assist with.

Task	AI Can Assist?	
1	☐ Yes	☐ No
2	☐ Yes	☐ No
3	☐ Yes	☐ No
4	☐ Yes	☐ No
5	☐ Yes	☐ No

STEP 3 For each task, write an AI prompt that would help.

Task	AI Prompt
1	
2	
3	
4	
5	

Example:

Task:
Weekly report

Prompt:

Create a professional weekly project report from these notes.

Highlight achievements, risks, pending work, and next week's priorities.

STEP 4 Estimate how much time AI could save each week.

Task	Estimated Time Saved (per week)
1	hours
2	hours
3	hours
4	hours
5	hours

Discuss:

- Which task offers the biggest productivity gain?
- Which tasks still require significant human review?

DISCUSSION QUESTIONS

1.

Which daily task consumes most of your time?

2.

Which task would you automate first using AI?

3.

How can AI improve team collaboration?

4.

Where should managers rely on experience instead of AI?

5.

What risks arise if managers blindly accept AI-generated work?

COMMON MISTAKES

MISTAKE

1

Using AI without reviewing the output.

MISTAKE

2

Automating tasks that require human judgment.

MISTAKE

3

Providing incomplete context in prompts.

MISTAKE

4

Expecting AI to understand company-specific policies without explaining them.

MISTAKE

5

Trying to automate every task instead of identifying high-value repetitive work.

BEST PRACTICES

Start with repetitive, low-risk tasks.

Provide clear context in prompts.

Review AI-generated content before sharing.

Protect confidential business information.

Measure time saved and refine your workflow.

Use AI to augment your expertise, not replace it.
